Sergei Zjuganov started his career in 2001 and since 2005 has been running a small production house, serving various clients from different business areas.

As cars have always been the primary source of interest in photography, they have also been the main direction to focus on.

Sergei and his team create visual marketing assets for a variety of brands in automotive industry: car makers, importers, restoration shops, private collectors and museums.

Working in studio and on location. Product photography and lifestyle.

Stills, motion, CGI.
